WORKING ON BEHALF OF

Freedom Infrastructure Services

Re: Essential upgrade of the Local Electricity Network Coming past/near your business/property

Dear Resident

Please be advised that **JSM/Freedom** will be excavating a trench in the public highway past or to the rear of your business/property as part of network expansion. The works will normally take place between the hours of 8am – 6pm Monday to Friday and will include weekends (Sat 8 am – 6 pm and Sunday 9 am – 6 pm), to ensure the works proceed as quickly as possible.

The cable route has been constructed from the substation on High Road to Prologis Park on Horton Road. This work was carried out with the permission of the Local Authority's Highway Department, the Traffic Police and is in strict accordance with the New Roads & Street Works Act.

The next phase of the construction will take place between the months of March and April and will involve cable installation and Jointing via standard methods.

On completion of the duct installation, we will return to site to install the cable and Joints. Due to the extensive nature of the scheme it is not possible to confirm the ongoing program at this time, but should you require further information over the coming months please do not hesitate to contact by e – mail our Major Projects Site Manager, Tristan Howe – **Tristan.howe@jsmgroup.com**, during working hours Monday to Friday 08.00 – 16.00

As with any infrastructure project, there will be some local disruption while we carry out this work and we apologize in advance for any inconvenience this may cause. We will do our best to minimise any disruption to residents/businesses and ensure that the contractors post signs on site providing contact telephone numbers, should matters arise which cause concern to you.

Once the construction works commences our site supervisor will contact you to confirm construction work dates outside your business/property.

Address 1	Works Location	Start	End	Permit Reference
